<b>Experience/Skills Desired:</b>	Must currently work for a TQIP participating centers as a Trauma Program Manager, Performance Improvement or Trauma Registry Professional

**TQP Training and Content Expertise Panel Overview**

The TQP Training and Content Expertise Panel includes staff in a variety of roles at participating Trauma Quality Improvement Program (TQIP) centers. This panel is responsible for helping to develop tools and methods to train TQIP participants, support TQP training initiatives, and provide registry input for the National Trauma Data Standard (NTDS) workgroup. This is a great opportunity to be involved on the front end with supporting TQIP centers, developing training materials, working with trauma staff at other centers, and ultimately helping to improve patient outcomes

**TQP Training and Content Expertise Panel Deliverable(s)**

- Support research and development of the NTDS
- Contribute to in-person TQIP conferences
- Translate knowledge gained from your TQIP experience into learning opportunities for other participants
- Assist in the development of content for TQP training materials
